ABOUT SÜTAŞ

Sütaş, founded in 1975 in Bursa, Türkiye is a dairy company, focused only on dairy and the dairy value chain. With the mission of contributing to the health, quality of life and happiness of people, we produce natural and delicious dairy products and our 7,500 employees work together to share the goodness and abundance of milk. Today, we produce and distribute 6.8 million packages of dairy products per day in our 4 integrated production facilities located in Türkiye, offering 91 varieties of dairy products to our consumers. We export to 47 countries including China, Egypt, European Countries, Azerbaijan, USA, Japan, UAE, Libya, Iraq and Kuwait.

With our expertise and continued focus in dairy, we have developed our "Farm to Table" strategy. Our integrated business model enables us to manage and control the process starting from the feed of the cow to the consumer's table; hence to ensure the naturalness, taste and nutritional values of our products. In line with this unique business model, in addition to our milk and dairy production plants, we establish breeding farms, concentrate feed plants, training centers, application farms, dairy plants, energy and fertilizer production plants in each of our integrated facilities.

We bring our craftsmanship and expertise to our production approach and new product development strategy. We established the first R&D Center of our sector in the region and apart from new product development in dairy, we carry out R&D and application projects to increase efficiencies and towards our Industry 4.0 and digital transformation goals. To provide natural and delicious dairy products that improve people's quality of life and bring them health and happiness, we manage and develop the dairy value chain in the most efficient and sustainable way, with the passion of sharing the goodness of milk.

Thanks to our unique "Farm to Table" business model;
With our established system and capacity, we guarantee continuous food supply for our consumers.
We ensure food safety by controlling and standardizing every step of the value chain.

OUR MISSION

To provide natural and delicious dairy products that improve people's quality of life and bring them health and happiness, we manage and develop the dairy value chain in the most efficient and sustainable way, with the passion of sharing the goodness of milk.

OUR VISION

To become the most loved brand, the most trusted corporation and the leading company in dairy sector.

FARM TO TABLE BUSINESS MODEL

We ensure the naturalness, taste and nutritional values of our products with our unique "Farm to Table" integrated business model.

We integrate, monitor and audit the whole dairy value chain from the feed of our cows to the farms they live on; from the milk they give, to the products that come to our consumer's table.

Our farmers produce forage crops on a contractual basis for our cows. We support and train our farmers, in areas such as selection of forage plants suitable for the soil, application of efficient irrigation systems and and by providing organic fertilizer support.

We have been providing free training and consultancy services to producers, students and entrepreneurs since 1998 in our Training Centers in order to make dairy farming in Türkiye healthier and more efficient. While producing hundreds of different dairy products from milk that is in compliance with our hygiene standards and in line with our standard protein, mineral and fat ratios, we always aim to preserve its naturalness and nutritional values.

We deliver our products to our sales points by maintaining the cold chain; constantly monitoring our vehicles' routes and temperature levels.

CRAFTSMANSHIP AND EXPERTISE

Dairy business requires both craftsmanship and expertise. Producing naturally delicious dairy products is a mastery, and delivering these natural products to millions of tables ensuring their freshness and health, requires expertise. At Sütaş, we use international quality management standards at every stage, from procurement and production to packaging and delivery, to ensure the food safety of our products. We monitor each and every stage of production both in real-time and retrospectively. Our expertise in milk provides the competency to produce new dairy products pleasing young generations' palates and addressing the conditions of modern life. We have been an innovative force in the milk and dairy products sector since the day we started. Sütaş has pioneered the production of packaged ayran, churned butter, baby yogurt, tubed fruit yogurt for children, UF white cheese and many other products in Türkiye. One of our main objectives is to offer new tastes so that people can benefit more from dairy products.

CORPORATE GOVERNANCE

Corporate Governance Principles form the basis of our values and priority-setting, our processes and procedures, the powers and responsibilities of managers and the rights of our stakeholders.

We stand by the principles of fairness, transparency, accountability, and responsibility. We cooperate with regulating and auditing bodies to integrate our Corporate Governance Principles to our business conduct.

We develop and strengthen our corporate structure in the light of our values and in line with universal corporate governance principles.

SÜTAŞ IN NUMBERS

200,000 points of sales.

We export our products to **47** countries. including China, Egypt, EU Countries, Azerbaijan, USA, Japan, UAE, Libya, Iraq and Kuwait.

Our net consolidated turnover **29.6 billion TL**

We are in every **8 out of 10 households.**

We have been a leading dairy brand in Türkiye for **17 years.** (Nielsen)

We were granted the corporate governance award in the last **9 successive years.** (Corporate Governance Association of Türkiye, "The non-public family-owned enterprise with the highest corporate governance score" award)

We are the most reputable dairy company, **57th** largest industrial enterprise in Türkiye (SIA Insight, Corporate Reputation Survey Istanbul Chamber of Industry, Türkiye's Top 500 Industrial Enterprise Survey)

Türkiye's most loved dairy products brand (Lovemark survey, IPSOS)

OUR QUALITY POLICY

Quality at Sütaş is not only managed during the production process, but through the whole supply and distribution chain, as required for a valuable food like milk that needs to be well preserved. We continuously provide free trainings for students and for dairy farmers in order to obtain efficiently produced higher quality milk. Our approach is to process milk in the most hygienic conditions while maintaining its essential nutrients to produce naturally tasty dairy products and to deliver our products in the most healthy and convenient packaging, without breaking the cold chain.

OUR FOOD SAFETY POLICY

At Sütaş, we stay up to date with scientific and technological developments and follow the latest trends. We monitor and review new and changing legislations. Our goal is to offer "safe food" to our customers and consumers through the implementation of an efficient food safety management system in all stages of production and through all processes and ensure its sustainability with continuous improvement. We procure the highest quality milk, produce in compliance with the highest hygienic standards and use the most advanced production technologies to produce the most natural and tasty products. In full compliance with the Veterinary Services, Plant Health, Food and Feed Law No. 5996, In full compliance with the Veterinary Services, Plant Health, Food and Feed Law No. 5996 of Republic of Türkiye Ministry of Agriculture and Forestry, Sütaş monitors and audits all steps in its processesw ith its unique, integrated business model "Farm to Table."

OUR CERTIFICATIONS

TS OIC/SMIIC 1 Halal Certificate of Compliance: This standard is a guarantee that the food is prepared adhering to the Islamic law and is unadulterated.

ISO 9001 Quality Management System: This system helps to continually monitor and manage quality across all operations, and outlines ways to benchmark and achieve consistent performance and service. It provides a framework and set of principles that ensure a common-sense approach to the management of the organization to consistently satisfy customers and other stakeholders.

FSSC 22000 Food Safety Management System: The FSSC System is designed to provide with an ISO based FSMS certification that is recognized by the Global Food Safety Initiative (GFSI). The FSSC 22000 system uses a management systems approach to food safety, employing ISO 22000 for the management system requirements and ISO Technical Standards for program prerequisites.

ISO 14001 Environment Management System: ISO 14001 is a standard designed to help businesses remain commercially successful without overlooking environmental responsibilities and impacts. It also helps to grow sustainably while reducing the environmental impact of this growth.

ISO 50001 Energy Management System: The main objective of the standard is to improve energy-related performance and energy efficiency continuously and to identify energy reduction opportunities.

ISO 45001 Occupational Health and Safety Management Systems: This standard is an international standard that specifies requirements for an occupational health and safety (OH&S) management system. It provides a framework for organizations to manage risks and improve OH&S performance.

SÜTAŞ IN NUMBERS

We improve the fertility of **50,000** decares of soil every year.

We produced **51,000** tons of organic fertilizer from the outputs of our energy plants.

410,000 tons of concentrate feed per year in feed plants,

Production of forage and fodder crops on **41,250** decare field

We meet **88%** of our electricity needs with **renewable energy** which we generate from the fertilizers of our farms and the organic wastes of our factories.

With our energy efficiency initiatives, we have saved **26 million** kWh of energy in the last five years. This savings are equal to the annual electricity consumption of **11,000 households.**

We hold the responsibility of sustainable management and efficient use of natural resources, and of circulating the resources back into the system.

Greenhouse gas reduction through our sustainability operations since 2013 is equivalent to the amount absorbed by **38 million** trees.

We are getting closer to our zero waste target every year.

We used **1.262** tons less packaging materials.

First R&D center of our industry with **37 engineers.**

With the highest number of patent applications, we are in the first place in the Milk and Dairy products sector and in the third place in the food and beverage sector.

The Farm of Happy Cows

All our farms are disease free and EU-certified Dairy Farms.

The welfare of our cows is a top priority. We manage our farms, observing "The Five Freedoms" adopted by the World Organisation for Animal Health.

Our integrated business model **"Farm to Table"** guarantees the naturalness and the quality of our products

Milk Requires Dedication, Dairy Business Requires Training

We have delivered training to **19,510** milk producers; and offered training and consultancy to more than **35,000** people and entrepreneurs at Sütaş Dairy Farming Applied Training Centers, being one of best examples of Public- Industry-Academia collaboration initiatives

sütaş

Turkish Labaneh

Legendary taste and lightness!

Sütaş combines the taste of cheese and the lightness of yogurt in Sütaş Labaneh. With its unique taste and soft texture, it brings joyful snacking moments any time, anywhere.

qaymaq | Kaymak

We add delicious flavor to your breakfast tables with Sütaş qaymaq / Kaymak, one of the most natural and delicious forms of fresh milk produced in Sütaş Farm.

Cream

Sütaş Cream, produced from the fresh milk of Sütaş Farm, consists of 100% milk fat. It helps you to create new recipes in a practical way by covering all professional needs (cooking and whipping), increasing the flavor and consistency of every dish / dessert where it is used, enters into, balancing its taste and creating an appetizing appearance.

Babymix® benim ilk yoğurdum · Büyümix® · MİNİMİX · HÜPTRİK

Products specially designed for babies and children!

Milk and dairy products are indispensable sources of nutrition for the healthy development of children. They are especially important to meet the increasing calcium requirements of the body in growing children. They help the formation of strong bones and teeth, healthy muscles and tissues. They provide our children with protein and various vitamins. Sütaş works to support the health of future generations starting from today, with products specially designed for babies and children.

KAF KEFİR

Caucasus Yeast Sütaş Naturality

Kefir was discovered in the Caucasus 5000 years ago by nomads and has been a part of their lives ever since. Each generation transferred kefir grains to the next one and this miraculous drink has come to our day. Yeast gathered from motherly kefir grains obtained from Caucasus Mountains and freshest milk from the Sütaş Farm come together in Kaf Kefir. Kaf Kefir's B12 vitamin and calcium content helps to lower exhaustion and fatigue, increases vitality and energy,is a great support for the muscles, bones and teeth, regulates digestive enzymes and boosts energy.
