Six Decades Of Coffee. At This Point,

It Runs In Our Blood.

The first seed of our coffee legacy was planted in 1956 by acquiring a 1000-acre coffee plantation from the Rajah of Chettinad in Coorg, India. The SLN Group began its journey by trading and exporting coffee through SLN Exports. In 2000, SLN scaled up its operations by establishing a 30,000 MT capacity curing and green bean trading division.

We have constantly expanded in innovation, technology and product offerings year after year. Our instant coffee division was born in 2007, growing to become one of India's leading exporters of roasted, ground and instant coffee powder with a capacity of more than 10,000 MT. Our manufacturing processes are designed to meet the highest international standards from ISO and GMP to FSSC 22000 and FDA regulations.

By controlling the value chain end to end,we deliver exceptional quality with better pricing for our customers. We are loved across more than 40 countries with private label offerings for prestigious international brands and for our homegrown brand Levista.
