About Us

DUDOMI

Dudomi is a dynamic noodle brand launched in 2022, brought to life with Eriş's expertise in food and noodle production, reflecting the energy and innovative spirit of young consumers. With its bold and innovative sauce options, Dudomi offers a distinctive noodle experience that meets the expectations of today's modern consumers.

The strength behind Dudomi is rooted in the production expertise of Eriş, one of Türkiye's well-established food producers, founded by Ali Eriş in 1920. This strong infrastructure brings quality, consistency, and reliability to Dudomi's production processes.

Going beyond taste alone, Dudomi places a healthy and reliable food approach at the core of its production philosophy. Dudomi products contain no coloring agents, preservatives, or flavor enhancers.

Established in 2023, the Eriş R&D Center carries out numerous innovative projects in the food sector and stands as Türkiye's first and only R&D center specialized in noodles, guiding Dudomi's innovative product development vision.

Produced in compliance with international food safety standards, Dudomi is audited within the scope of BRCGS and ISO systems and is also certified with the GIMDES Halal Food Certificate. Vegan compliance certificates are also available for selected product groups.

Eriş's principle of "never offering consumers any product that would not be served at its own table" is reflected throughout Dudomi's entire production approach. With this strong heritage and innovative mindset, Dudomi continues to be a preferred choice among young noodle lovers in both Türkiye and global markets.
