ABOUT US

Our story as Güney Süt Sanayi ve Gıda Maddeleri Ticaret Anonim Şirketi began in 1970 by trading feta cheese in Cukurova region. In 1980, first production facilities were established in Elmali, which is the district of Antalya, and continued its activities.

The production of milk and dairy products, which are respectively, UHT (Ultra Heat Treatment) Milk, Butter, Cheddar Cheese, Yogurt, Ayran and Local Food Cheese group, quickly turned into a family culture. In order to meet the needs of the consumers and contribute to the taste of them, **Güney Süt continues its activities as a modern facility with a capacity of 500 tons on an area of 40.000m2 by developing itself over the time.**

In the line with the demands, Güney Süt decided to enter the concentrate and fruit juice market by using knowledge the aseptic filling experience in milk and dairy products, thus **Yummy Fruit Juices Food Industry , which has capacity of 500 tons per day on an area of 30,000 m2, was established in 1993 in the Akdeniz district of Mersin.**

In 2007, in order to better meet the demands, Güney Süt established **Güney Farm with 2000 cattle on 1100 decares of land in Konya, Ereğli.** At the same time, a large agricultural area was put into service with the farm, where they provide animal feed to reduce costs and reach a better food source.

"In every moment of life, Güney is the natural aspect of taste and health".

Güney Süt, **processing 500 tons of milk daily,** produces and distributes its products in a reliable, hygienic and healthy way, in accordance with world standards, using the latest technologies in the dairy industry.

The company, which **exports to more than 30 countries,** aims to improve its export range with the help of the adequacy of its production capacity and having many years of experience. In addition to our Güney and Selin brands that are already on the market, we also launched our new brands Lacteal and Puremix.

Continuing to grow gradually, Güney Süt is ranked #229 in second ISO 500 list of Istanbul Chamber of Industry showing the largest corporations in Turkey. In addition, **Güney Süt is also listed in the top 15 among dairy product companies in Turkey.**

"Our companies, which continue on their way with more than 400 employees and more than 100 product range as a group company, have reached a daily production capacity of 1000 tons today."

Our company, which has a history more than 50 years in the milk and dairy industry with its strong management and corporate structure, continues to make investments about the wellness of our environment by expanding its perspective not only on production but also on the environment. Within the scope of combating the climate crisis, which is a great threat to our world, we, as Güney Süt family, are making investments in renewable energy resources in order to contribute to the protection of our ecosystem. With the help of SPP,which is the one of them our investments, we currently cover 25% of our energy. **Thanks to SPP investment that we started in September 2023, we produced 500,000 kWh of our energy as rooftop SPP and reduced carbon emissions by 220 tons.**

"Güney is the natural aspect of health and taste"

With environmental awareness, which is the mission of Güney Süt, we evaluate every step we take in the sector within the scope of sustainability. As a company, we are on duty to reduce carbon emissions in order to contribute to our country's emission reduction targets by continuing our SPP investments. **To learn and prevent our carbon footprint, we are starting our studies to obtain our 14064-1 Corporate Carbon Footprint certificate without waiting for the legal obligations that will come into force in 2026.**

MILK GROUP

1000 ml Güney %3 Fat Milk

Shelf Life (Days) : **120**
Packing per Carton : **12**
