Our Story

Our company, has followed a continuous development policy since the day it was founded, took the first step in terms of carrying the corporate culture by becoming a company in 2009. Our small workshop, which we started with our 180m2 production area, continues to serve with our new 1100m2 integrated facility as of today. "FATİH SULTAN PESTİL KÖME GIDA SANAYİ TİCARET LTD. ŞTİ" is the producer and exporter of Pestil and Köme since 2016.

In order to be the pioneer of our sector and to produce quality products, all of our products are produced under the supervision of our food engineer, using the latest system technology with first quality raw materials. In addition to this, our company also operates in the market with Food Production Permit Certificates of Republic of Türkiye Ministry of Agriculture and Forestry , internationally valid documents such as ISO 22000 and five(5) registered trademarks obtained from the Turkish Patent Institute.

We are proud of producing "edible energy" in Gümüşhane, the homeland of Pestil and Köme, and serve it to the whole world with the difference of Sultan Pestil.
