WHERE QUALITY MEETS WELL-BEING

Ranre International (pvt) Ltd,
Kelaniya, Sri Lanka.

www.ranrefoods.com

ABOUT US

Founded in 2008 by visionary founder Mr. Kushan Dias, Ranre International began with a mission to modernize Sri Lanka's tea and coconut industries. Recognizing that traditional production methods and basic packaging were limiting their global potential, Mr. Dias introduced value-added packaging solutions, helping these industries meet the demands of modern, fast-paced international markets.

Over the years, Ranre Group of Companies has diversified into multiple industries, leveraging its extensive knowledge and experience to deliver value-added solutions that drive growth both locally and internationally.

Inspired by global trends toward healthy living and the growing demand for organic and non-GMO products, Ranre Foods was established to deliver safe, natural, and healthy Sri Lankan food products to the world in value-added, premium packaging. Our focus is not only on purity and quality, but also on presenting Sri Lanka's finest produce in a way that meets international expectations while preserving its natural goodness and authenticity.

Ranre Foods proudly transforms Sri Lanka's naturally rich harvest into premium organic food products, thoughtfully crafted and beautifully presented for the global market. Every product carries the purity of the island, the care of its people, and the pride of Sri Lanka — delivered in value-added packaging that reflects the quality, authenticity, and excellence within.

Ranre Foods delivers premium organic food and beverages worldwide — bringing the true tastes of Sri Lanka to every table with passion, integrity, and unmatched dedication.

OUR VALUES

Quality

The quality and consistency of every product are our second nature, upheld by internationally recognized standards.

Passion

We combine professionalism and traditional mastery to deliver exceptional products with rich nutritional benefits.

Uniqueness

Each product offers a novel experience, defining our uniqueness and setting us apart in the market.

Commitment

Every step of our production is handled with utmost care, reflecting our commitment to excellence and premium quality.

Consumer centric

By understanding our consumers' needs, we craft value-added products that bring traditional richness to modern, healthy lifestyles.

ORGANIC VIRGIN COCONUT OIL

Bring a tropical touch to your everyday meals with **Ranre Foods Organic Virgin Coconut Oil.** Infuse your dishes with the natural aroma and subtle flavor of sun-kissed coconuts. Perfect for cooking, sautéing, or adding to salads, it nourishes you and your family with the wholesome benefits of pure, fresh coconuts. Enjoy the richness of nature in every drop.

WE DO CARE

The beautiful island of Sri Lanka is abundant in its nature's legacy, distinctive with luscious tastes and vivid flavours in all its fruitage. Passionate to share this wealth with the world, Ranre Foods takes on the mission with a commitment to provide it with quality, consistency and pureness of products only a team in love with their dream can. Striving to bring the world's best possible products of Sri Lankan origin and empowering its promise, the company makes sure it is accredited with all the international certificates described further. Moreover, caring about its clients' and consumers' well-being and peace of mind, Ranre Foods is vigilant in guaranteeing the production and the sources of all of its ingredients have similar relevant certifications. Thus, ensuring that no matter where in the world its clients and consumers are, they can be confident of the unmatched class of the products they receive under the Ranre Foods brand.

RANRE FOODS

LK-BIO-148
Non-EU Agriculture

EU ORGANIC CERTIFICATION

Under the present legislation introduced in 2010, a product can be considered to be organic if at least 95% of its ingredients are of organic origin. The rest of the 5% of ingredients are allowed to be of non-organic origin, but are strictly regulated and are considered as an acceptable error margin.

USDA ORGANIC CERTIFICATION

Applicable to the farms and handling facilities around the world, and published in the year 2000, a product under USDA can be labelled as "organic" only if it contains 95% of organic ingredients.

Control Union
Certifications
CU 857281

JAS ORGANIC CERTIFICATION

JAS Organic certification, revised in 2005, defines standards for quality and specifications, and the processes of production and distribution with regard to products, and sets out standards for methods of product handling, and business managing methods in respect to the business operators. It also stipulates the testing methods of products, thus covering everything from beginning to the end in respect to certified products.

SL ORGANIC CERTIFICATION

National Organic Certification Mark (NOCM or SL Organic certification) issued under SLS 1324:2018 standards by the National Organic Control Unit of the Sri Lanka Export Development Board prescribes requirements for production, harvesting, handling, processing, transportation, packaging, labelling and marketing of organic produce and products. NOCM requires for at least 95% of ingredients to be organic and additionally impose strict conditions for the remaining 5%.

FDA CERTIFICATION

Initiated in the year 1906 under Department of Health and Human Services, the Food and Drug Administration is a US federal agency. It is responsible for protecting and promoting public health through the control and supervision of food safety among others. It oversees the quality of substances sold as foodin the United States and monitors claims made in the labelling of both the composition and the health benefits of foods. FDA also controls the claims made by the manufacturers and distributors during any form of advertising of the food products.

ISO 9001:2015 CERTIFICATION

The certification assesses the organizations in their ability to consistently provide products and services that meet their customer and regulatory requirements. As part of the organization's growth, the certification helps them to organize processes, improve their efficiency and continually improve their management, production and services.
