# ABOUT US

## Mr. Ritum Jain
## Director

Established in 2013 in Kolkata, India, Safe Agritrade is a globally recognized business specializing in processing, repacking, and exporting a wide range of agricultural commodities. With a strong foundation in international trade, we have built a reputation for quality, reliability, and customer-centric service.

Our core expertise lies in rice—whether it's Basmati, Non-Basmati, Jasmine, Camolino, or any variety from around the world. Simply share your preferred rice type & packaging requirements, and we will deliver it to your doorstep with precision and care.

Beyond rice, we take pride in exporting premium-quality tamarind products under our Ship Brand, a registered trademark in India. Our offerings include Tamarind Paste, Seedless Tamarind, Defiber Tamarind, Tamarind Puree, Tamarind Concentrate, and Tamarind Seeds.

Additionally, we have a dedicated team overseeing the export of other high-demand agricultural products such as Chickpeas, Red Chilies, Turmeric, Millets, Cashews, Green Coffee & Dry Ginger.

Under the leadership of Mr. Ritum Jain, Safe Agritrade has evolved into a leading international hub for agricultural commodities. Our strategic location near Kolkata Port allows us to offer efficient logistics, competitive ocean freight rates, and timely deliveries, ensuring a seamless experience for our global clients.

At Safe Agritrade, we are committed to quality, precision & customer satisfaction, making us a trusted partner in the agricultural export industry.
