COMPANY PROFILE

Forewords

It is an honor for us; HASIL MELIMPAH, PT., has become one of the fastest-growing fishing companies in Indonesia in the last ten years. To stay at the forefront of the dynamic global fisheries market, we commit to ensuring quality standards to produce quality products.

HASIL MELIMPAH, PT. has founded with a strong team spirit and is fully committed to working professionally and with full dedication from the catching process to the processing stage of sea fish. In every business process and activity of the company, we strictly maintain fisheries and marine ecosystems in Indonesia Indonesia by following reasonable and correct fishing procedures. Furthermore, we commit to always maintaining professionalism and partner and customer satisfaction.

We believe; with passion, honesty, and professionalism, we can contribute to the growth of the fishing industry and the Indonesian economy. Thank you.

Yours sincerely,

Director of HASIL MELIMPAH, PT.

ABOUT US

Company Profile

Hasil Melimpah, PT.; established in 1999, is a company that specializes in the fishery and cold storage industry. The company started its operations by establishing the first cold storage in Cilacap in 2007 and then expanding its business in Jakarta in 2012.

The products we sell are from ABF (Air Blast Freezer)-based fishing vessels where the caught fish are immediately frozen on board. Furthermore, the fish caught will be taken by transit ships to the port to be stored in cold storage.

Besides selling it in the domestic market, we have exported our fish products from our vessels and cold storage to various countries such as Japan, Thailand, and Taiwan.

Hasil Melimpah, PT. continues to increase the number of fishing vessels since 2000 and always maintains fish quality following HACCP procedures.

Vision

To become a leading fishery and cold storage company in Indonesia through high quality and professional products and services.

Mission

- Continue to innovate to improve the quality of products and services in the fishing industry, especially fishery and cold storage.
- Contribute to building ecosystems and partnerships in the fishing industry in Indonesia.
- Contribute to improving the quality of human resources in the fishing industry in Indonesia.

Company Philosophy

Focus on Customers

The company puts customers as the top priority through continuous innovation and quality improvement.

Innovation

Through continuous improvement of processes and business models, the company is committed to always providing innovative products and services that are able to meet market needs.

Competence

The company is committed to continuously improving the quality of human resources through education, training, and certification to keep up with the dynamics of the industry.

Partnership

The company is committed to building a healthy ecosystem and partnering with domestic and foreign companies for mutual development.

OUR SERVICES

What We Offer

At Hasil Melimpah, PT.; we are committed to delivering high-quality frozen fish to both domestic and international markets. From catching to storage and processing, we maintain strict quality control to ensure our fish remain fresh, clean, and well-preserved.

With our expertise in the fishery and cold storage industry, we guarantee products that meet the highest standards of hygiene and freshness.

Catching

We catch our own fish using responsible fishing techniques, ensuring the highest quality and freshness from the source

Cold Storage

Our cold storage facilities maintain stable temperatures to preserve the freshness and quality of our fish for domestic and international customers

Processing

We carefully handle and process our frozen fish under strict quality control, ensuring they meet hygiene and industry standards before delivery

Frozen Fish Products

Quality and taste are essential aspects of fish serving. Therefore, to maintain the quality of our fish products, we keep our fish in a clean and well-maintained refrigerated room.

We also monitor our refrigerated fish from time to time so that the temperature and condition of the fish are maintained stably and consistently. Therefore, a standardized fish storage process will produce a good quality product. In addition, good handling of the frozen fish processing process supports the final product in the package to align with the high expectations of our domestic and overseas customers.
